

DAWN HEALTH

CARBON NEUTRAL

The carbon footprint of Dawn Health has been 100% carbon offset.

The offsetting has happened through measurable carbon reductions, verified by the strictest industry standards. Dawn Health supports our portfolio of hand-picked high-quality projects.

Additional to the offsetting, Dawn Health is also planting trees in the Climaider forest in Madagascar.

Through these projects, Dawn Health contributes to the UN's SDG no. 13, Climate Action, as well as several other SDGs.

This certificate was issued on April 12, 2021.
